

Thornbury Park Estate Precinct Statement of Significance (RBA Architects and Conservation Consultants, April 2026)

Heritage Place:	Thornbury Park Estate Precinct	PS ref no:	HO318
------------------------	--------------------------------	-------------------	-------

This document is an incorporated document in the Darebin Planning Scheme pursuant to section 6(2)(j) of the *Planning and Environment Act 1987*

What is significant?

The following original elements contribute to the significance of the Thornbury Park Estate Precinct:

Generally:

- single-storey dwellings,
- consistent setbacks.

Buildings dating to the Federation period:

- Intact roof forms - typically gabled with a main gambrel or hipped section,
- Original type of roof cladding - mostly corrugated metal sheeting, some with terracotta tiles, a few finials,
- Intact chimneys – usually with defined caps, mainly face brick but some rendered or with rendered elements,
- Finishes to gable ends - mainly roughcast sheeting with battens, a few with distinctive bargeboards,
- Intact timber-framed walls of painted weatherboard, some with roughcast sheeting,
- Verandahs - mainly offset or corner types, with turned timber posts, brackets or fretwork/friezes,
- Bay windows, some with hoods,
- Timber-framed windows - mainly casements with highlights, some double-hung sashes, some lead lighting and stained glass,
- Timber doors - typically panelled with some glazing, some with a sidelight.

Buildings dating to the Interwar period:

- Intact roof forms - gable, often with exposed rafter ends (1920s); or hipped (1930s),
- Original type of roof cladding - mostly corrugated metal sheeting, some tiled, and a few finials (metal or terracotta),
- Intact chimneys - mainly face brick but some rendered,
- Finishes to gable ends – including shingles or shingled boards, upper lattice vent,
- Intact timber-framed walls of painted weatherboard, some with roughcast sheeting (bungalows/1920s),
- Intact brick walls - red, clinker, cream; some (partly) rendered (generally 1930s), some tuck-pointing,
- Masonry porches - balustrade wall (brick and/or render) and/or piers with tapered or Solomonian columns; some with timber decks (1920s); smaller masonry porches (1930s),
- Bay windows - many faceted with a shingled skirt,
- Timber-framed windows - including boxed-framed, mainly double-hung sashes (some with multi-paned upper sashes) but also casements, some lead lighting and stained/textured glass (geometric designs), some hoods,
- Original timber doors - typically with some glazing,
- Original low brick fences – face brick and/or rendered (1930s),
- Commercial buildings - both single and two storey with parapets, with more elaborate detailing to the two storey. A pair with an expressed roof in Miller Street.

Refer to the table at the end of this document for the grading and construction period of each dwelling.

How is it significant?

The Thornbury Park Estate Precinct, Thornbury, is of historical, representative and aesthetic significance to the City of Darebin.

Why is it significant?

The Thornbury Park Estate Precinct is of historical significance as part of a large subdivision that illustrates the emergence and rapid consolidation of Thornbury as a residential suburb during the early 20th century, changing from its hitherto largely rural character, especially at its western end. Whilst two subdivisions had occurred during the 1880s in the vicinity, they had resulted in only sparse development at best by the end of the first decade of the 20th century. Both earlier subdivisions also employed the same name (Thornbury Park Estate) as they too derived from the extensive land holdings of Job Smith (CA 131+ 136, consisting of nearly 370 acres at their maximum), which came to be known as 'Thornbury Park', after a place in Hertfordshire. Smith built/lived in a farmhouse on the high ground near the west end of Smith Street, which survived to the mid-20th century. Smith maintained his farm, where he cultivated rare grasses, etc. until he eventually sold all the land during the late 1880s.

Subsequently the land was retained in two large holdings (owned by the Commercial Bank of Australia, after the default by Australian and British Land Deposit Agency with the 1890s crash, and the Trustees Executors and Agency Co.) for over 20 years until there was sufficient cause to subdivide the land.

The Thornbury Park Estate Precinct was mostly being offered for sale from late 1911, though not officially subdivided until 1914, at which time the subdivision of the smaller portion at the south-west corner was undertaken. Although sales were strong during the 1910s, substantial development did not occur in earnest until the early 1920s, after the opening of the St Georges Road electric tram (1920) and the electrification of the rail line (1921). Much of the ensuing construction was likely undertaken by builders such as Dunlop & Hunt and the prolific, local firm of Stewart & Davies. This pattern demonstrates the broader speculative dynamics in the district around this time and the integral part played by these types of builders in providing the suburban dream to a wide demographic. (Criterion A)

The Thornbury Park Estate Precinct is of representative significance for containing manifold good and generally intact examples of modest late Federation and Interwar period house designs, many of the type practiced by suburban builders, as well as examples of State Savings Bank homes. The prevailing Federation/Interwar period bungalow type (typically gabled roof form, asymmetric façade with a side porch in timber [Federation period] or masonry [Interwar period] with an underlying Arts and Crafts aesthetic) provides a cohesion to the precinct along with the remnant subdivision pattern, which is broadly interpretable as a mix of original allotments and others divided in half. The economical yet presentable housing stock, which is almost entirely detached, is indicative of standard types of residences constructed during the main development phase of the 1910s and 1920s – being mainly timber-framed with corrugated metal roof cladding. Differentiation is provided by employment of an array of detailing in varying combinations so that whilst similar, houses in small groups of consistent types are made individual (for instance, to the gable ends [shingling, battened sheeting, and/or lattice to apex, etc.] and bay windows [bowed or faceted]).

Robust/broad elements to many porches such as tapered or helical/Solomonic columns are a distinguishing feature. The humbleness of the construction is evidenced however by the lack of 'extraneous' detailing such as decorative glasswork, which is common in more middle-class examples. The few latter houses – dating to the 1930s (or late Interwar period) tend to be brick with tiled roofs and a uniformly larger (though some are paired/semidetached). The commercial buildings to Miller Street are a mixture of single storey and more elaborate, two storey examples reflecting contemporary design approaches and providing an intrinsic complementary component to this large residential precinct. (Criterion D)

The Thornbury Park Estate Precinct is of aesthetic significance for including two individually notable buildings. These two buildings are relatively substantial, have a greater level of detailing, and higher

quality palette of materials than the more economical approach evident generally across the precinct. (Criterion E)

- 33 Comas Grove - this sprawling Californian Bungalow style house with red brick dado and roughcast rendered walls above has an original dormer. The garden retains a semi-circular driveway, beds with stone edging, and some substantial specimen trees.
- 145-147 Miller Street – commercial building with an array of retained classicising elements (detailing to the pediment, elongated hoods, and recessed windows with frames) and an unusually intact canopy with decorative metal sheeting (fascia and soffit).
